

RIGGING CAGE

2,000 LB CAPACITY · 4 SHACKLE LIFTING POINTS · EXPANDED METAL · LOCKABLE DOOR · 250 LB PER HOOK

⚠ California Prop 65 — see Page 112. Inspect before each use. Never exceed rated capacity. Any single hook rated for 250 lbs.

Commonly used to **organize and hang rigging, shackles & other slings off the floor** — keeping gear clean, accessible, and protected. Heavy-duty steel frame with expanded-metal sides and a lockable door that fits a padlock (by others).

Four lifting points at the top fit **3/8" bolt-type anchor (BTA) shackles** (by others) for crane handling at a 45° minimum rigging angle. Internal hooks keep slings and rigging organized; any single hook is rated for 250 lbs. Shown with expanded-metal side and door removed for inside view of cage.
