

7X19 GALVANIZED VINYL COATED CABLE

VINYL COATED · 7X19 CONSTRUCTION · GALVANIZED STEEL · COMMERCIAL GRADE

7 X 19 VINYL COATED

Vinyl Jacket · Galvanized Steel

7x19 galvanized vinyl coated cable features a vinyl jacket over a flexible 7x19 galvanized steel core, providing additional corrosion protection, abrasion resistance, and a smooth, non-marring surface.

Galvanized zinc coating provides reliable corrosion protection at an economical price point. Custom colors available upon request.

Commercial grade — NOT intended for aircraft use.

Warning: Wire rope & aircraft cable should never be used at breaking strength. 10:1 safety factor minimum recommended. Do not use for overhead lifting without consulting a wire rope rigging professional. End fittings may not hold to 100% of strength efficiency.

SPECIFICATIONS & BREAKING STRENGTH

CABLE ID	COATED OD	MIN. BREAKING STRENGTH (LBS)	WEIGHT PER 1,000 FT (LBS)
3/32"	.131"	1,000	21.0
3/32"	1/8"	1,000	20.0
3/32"	5/32"	1,000	22.0
3/32"	3/16"	1,000	29.0
1/8"	3/16"	2,000	40.0
1/8"	1/4"	2,000	49.0
5/32"	7/32"	2,800	61.0
5/32"	1/4"	2,800	65.0
3/16"	1/4"	4,200	81.0
3/16"	5/16"	4,200	97.0
7/32"	9/32"	5,600	106.0
7/32"	5/16"	5,600	114.0
1/4"	5/16"	7,000	133.0
1/4"	3/8"	7,000	152.0
5/16"	3/8"	9,800	204.0
5/16"	7/16"	9,800	226.0
3/8"	7/16"	14,400	295.0

MBS = Minimum Breaking Strength. ID = Inner cable diameter. OD = Overall coated diameter. Custom colors available upon request. Commercial grade import — material origin is import unless requested otherwise.

FEATURES

- PVC vinyl coating for added corrosion and abrasion protection
- Non-marring surface protects finished materials
- Galvanized steel core for economical corrosion protection
- Multiple OD options per cable size for varying jacket thickness
- Custom colors available upon request

APPLICATIONS

- Cable railing systems
- Marine & dock rigging
- Clothesline & trellis wire
- Gym & fitness equipment
- Signage & displays
