

2" RATCHET TIE-DOWN WITH WIRE HOOKS

DOUBLE J-HOOK EACH END • POLYESTER WEBBING • WLL: 3,300 LBS. • IMPORT

IMPORT

★ USA MADE ALSO AVAILABLE ★

⚠ Never exceed the Working Load Limit. Do not use "cheater bars" or other means of increasing leverage on ratchet handle.

Murphy M-Strap Cargo Control ratchet tie-downs with wire double J-hooks on each end for easy connection to D-rings, stake pockets, and other tight anchor points. Industrial-grade polyester webbing is extremely strong with very little stretch to keep loads secure.

Wire J-hooks are ideal for applications with limited space or difficult-to-access tie-down points. Polyester webbing resists stretching, UV damage, abrasion, and water absorption. Corrosion-resistant zinc-plated ratchet mechanism with wide handle for easy tensioning.

All straps tagged and stenciled with WLL and break strength. Used for flatbed trailers, trailer interiors, E-track systems, moving trucks, and many other applications.

Polyester webbing, wire double J-hook each end. All hardware zinc-plated steel. Labeled to meet DOT regulations, CVSA guidelines, WSTDA recommended standards, and North American Cargo Securement Standards. 80% of orders ship same day.

FEATURES

- Industrial-grade polyester webbing
- Wire double J-hook end fittings each end
- Ideal for tight & hard-to-reach anchor points
- Wide-handle ratchet for easy tensioning
- Corrosion-resistant zinc-plated hardware
- Very little stretch under load
- UV, abrasion & weather resistant
- Tagged & stenciled with WLL & break strength
- 12 lengths available: 6' through 50'

COMPLIANCE

- DOT regulations
- CVSA guidelines
- North American Cargo Securement Standards
- WSTDA recommended standards

APPLICATIONS

- Flatbed trailers & step decks
- D-rings & stake pocket connections
- Trailer interiors & E-track systems
- Moving trucks & general cargo
